# Sample project bid review: public LJA bid tabulation, Harris County MUD 478 (letting 2026-08-21)

Compared with awarded bids of an agency that is not in the index (Texas, Special district) as of 2026-10-18 · report generated 2026-10-18 · 102 lines · sheet total $1,027,269

**0 of 102 (0%)**
lines with an awarded range
0% of the sheet's dollars

**80 (78%)**
lines with observed nearby bids only

**14 (14%)**
lines with no benchmark

**8 (8%)**
lump sum / allowance lines (never benchmarked)

**0**
lines priced above the range
$0.00 above the top of the range in total (price − 75th percentile, × quantity)

**0**
lines within the range

**0**
lines priced below the range
$0.00 below the bottom of the range in total

**How to read this.** The range is the middle of what this agency awarded for the same item (25th–75th percentile of winning bids, brought to the as-of date with Hubstake's cost index). It shows what was paid, not what this job should cost: quantity, site and schedule move prices, and a price outside the range is a question to ask, not a finding. **Coverage is partial**: only 0% of the lines could be compared with a range. In Hubstake's tests on projects held out of the index, an awarded price fell inside its range about half the time. Lines marked "Wide spread" have awarded prices that vary widely; treat their ranges as loose. Observed nearby bids are individual awarded prices from other projects in the same or a bordering state within five years; they are not an estimate.

## Method and limits

Descriptions are matched to items in Hubstake's index of winning bids from public bid tabulations by wording, size, unit and class; a line without a confident match is not benchmarked. A range requires at least 8 awarded bids from at least 5 projects of the same agency. Older awards are brought to the as-of date with a cost index fitted to the same data; the comparables closest in quantity are used when there are enough. Engineer's estimates and losing bids are never part of a range. Hubstake does not know the correct price for a job and this report is not an appraisal, an audit or engineering advice.
